# Presentation

We are people who care about the **craft realities of our country**, giving voice to the stories of people who are passionate about spread **their values of creative**, manual work and slow production from generation to generation.

# Goal

The main goal of this project is to make **Italian handicrafts known** in the educational sphere abroad, through clear and effective pills that express and state traits of Italian culture, **avoiding to remain on the surface of stereotypes**, but going to squeeze out what is deepest in Italian culture.

# How does it work?

As a subscriber, you can take advantage of a **package of 6 mini-lessons** of a maximum of **15 minutes each**, on a **specific topic** on **Italian culture**, always following the thread of the artisan realities of our magnificent territory.

You can use this package according to your needs. Ideally, you should have **15 minutes a day free to dedicate to these pills**, knowing that for six days a week you will have learnt and introduced something new about Italian culture into your lives.

**If your schedule does not allow it**, you can also watch the lessons all together in one day, **having 90 minutes in total**.
